

Annual Review 2018

“A year in which an idea became reality”

A message to you

First of all, we'd like to thank you for your endless patience and dedication. You are very valuable to us and we could not be more grateful.

As some of you may know, we launched our new website on the 9th of November this past year. We wanted a fresh start as an official company, and this year, that time has finally come.

We're going to make 2019 even better. Let's bridge more and more language barriers!

What makes us special?

We are as transparent as glass. You can read everything about us, our translation process, our rates, and anything else about Young Translators.

We provide multiple payment methods and are transparent about our rates. Requesting a quote is made as simple as possible. We are also able to provide a free test-translation.

Documents are revised 3 times!

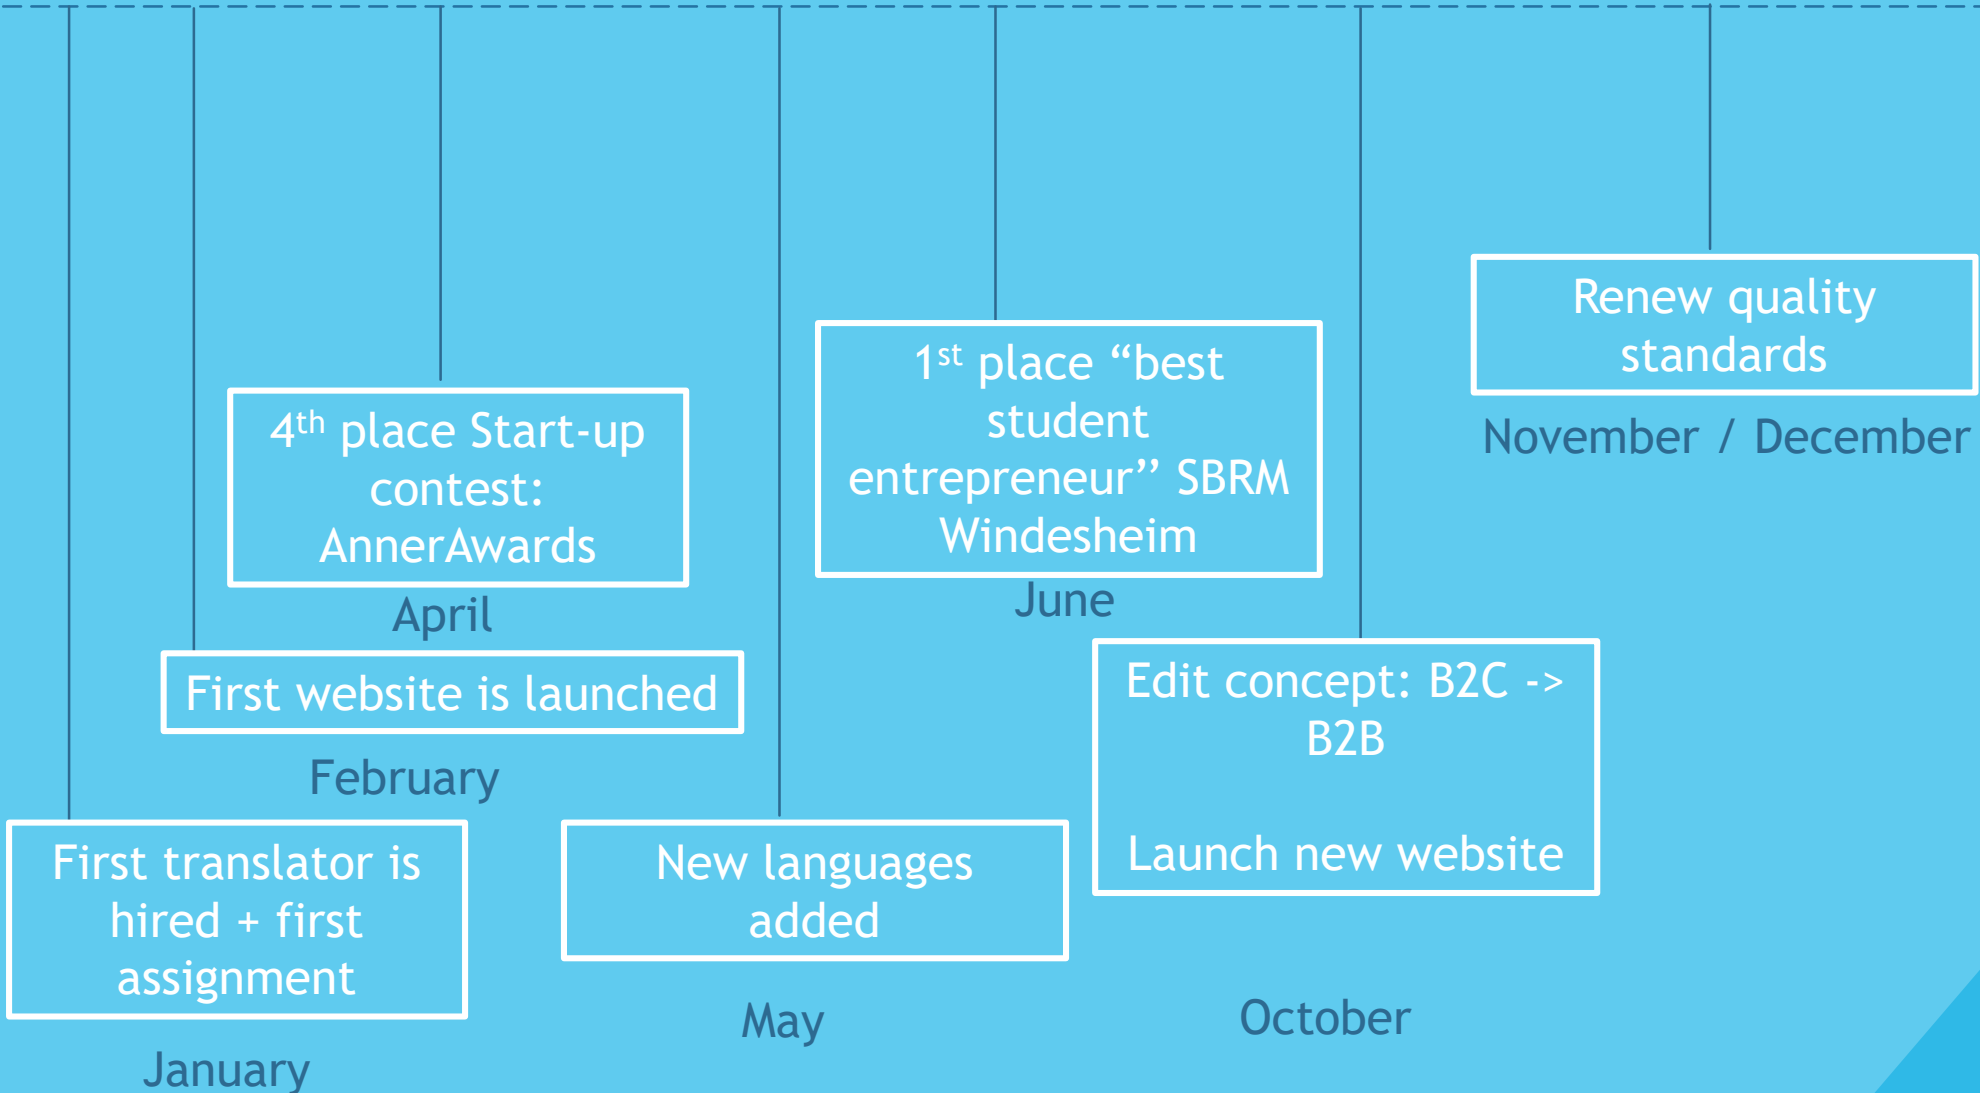

We are working with the best young professionals who have high knowledge of a particular language. We want you to develop your skills!

We created a solution that is in the interest of us all, with beneficial rates and transparency in businesses. Earning money and developing language skills through 'learning by doing' encourages our young professionals!

Last year...
